

MEDAILLE DER ETH ZÜRICH

für hervorragende Doktorarbeiten 2010 im D-PHYS

	KandidatIn	Titel der Arbeit	ReferentIn
	Claudius F. Brennecke	Collective interaction between a Bose-Einstein condensate and a coherent few-photon field	Prof. Dr. Tilman Esslinger
	Lea M. Caminada	Study of the Inclusive Beauty Production at CMS and Construction and Commissioning of the CMS Pixel Barrel Detector	Prof. Dr. Felicitas Pauss und Prof. Dr. Ralph Eichler
	Michele Ceriotti	A novel framework for enhanced molecular dynamics based on the generalized Langevin equation	Prof. Dr. Michele Parrinello
	Johannes Martin Fink	Quantum nonlinearities in strong coupling circuit QED	Prof. Dr. Andreas Wallraff
	Françoise Molitor	Electronic properties of graphene nanostructures	Prof. Dr. Klaus Ensslin
	Pascal Oesch	13 Billion Years of Galaxy Evolution	Prof. Dr. Marcella Carollo
