

# A night at the observatory

Come and hear about some of the latest cutting-edge astronomical research at the ETH Zurich. The night will begin with a public lecture on "dark matter" by Prof. Justin Read (in English). This will be followed by a tactile "mobile museum" exhibit and tours of the historic ETH Sternwarte. Weather permitting, you will have the opportunity to actually look at the night sky through the large optical telescope in the Sternwarte dome.

**Date & Time:** October 17th, 7pm

**Place:** ETH Sternwarte, Schmelzbergstr. 25 CH-8092 Zurich

**Advance tickets:** Advanced tickets are required; please book your place here: <https://ethz.doodle.com/z997rwzt5q7fcqu8?lt=2>

**Cost:** Free

**Web:** [http://www.astro.ethz.ch/outreach/The ETH Sternwarte](http://www.astro.ethz.ch/outreach/The_ETH_Sternwarte)
